

September 16, 2022

Dear Parents/Guardians,

I am writing to you at this time to provide exciting information related to our new K-12 comprehensive career education at the Mountain View School District. This career program is designed for school personnel, students, and parents to work collaboratively as students explore different interests and learn more about their strengths.

The Mountain View “Naviance” career program provides students career interest assessments at each grade level, career planning tools, college planning tools, and success planning tools including: a goals board, task builder and tips. One particularly interesting area to explore for parents and students in the Career Planning window is the “Explore Careers and Clusters” tool. Within this tool, students can browse career and cluster profiles to learn more about skill/degree requirements, typical job tasks, average national wages and information from the Bureau of Labor Statistics and the U.S. Department of Labor.

Starting this school year, your child has received a username and code. They have already begun to explore their career interests on Naviance. Included in this letter is your parent registration code. This information will give you immediate access to your child’s Naviance program and profile while they are a student in the Mountain View School District. The website is Naviance.com. Your registration code is .

If you have any questions or concerns, please contact Mrs. Holly Benedict in the high school guidance office at (570) 434-8525.

Sincerely,
Dr. Mark Lemoncelli
Principal
Mountain View High School
